Hi Chris.

There are 4 sites in Santa Fe that show an open or active status in our Superfund database. These sites are being evaluated by the New Mexico Environment Department (NMED). The sites are:

- Alarid and Cerrillos PCE Plume EPA ID # NM0000605289 (a ground water plume)
- Baca Street Solvents EPA ID # NM000605618 located near Baca and Cerrillos (a ground water plume)
- Camino Rancheros Chlorinated Solvents EPA ID # NM0000605529 located at 623 Camino Rancheros (a ground water plume) and
- Eberline Instrument Corp EPA ID # NMD007106776 located at 504 Airport Rd

If you have additional questions, please let me know.

Hi Chris.

The person that pulls my reports was out of the office on Friday and printed it for me today. I am not in the office today but will send it to you tomorrow from the office.

Thanks.

Hi, Ladonna –

We spoke late last week about a site in Santa Fe that may have some implications for a project in the area. You mentioned that you could email me a list of EPA-regulated sites in New Mexico. I haven't received anything, so I'm wondering if I gave you the correct email. If you could send the list to this email address, I would greatly appreciate it. Thanks very much!

Chris
